

Genetic Assays, Inc

1994-2009

Celebrating 15 years of Service

July 2009 marks our 15th year of providing leading edge molecular diagnostics testing services at Genetic Assays, Inc. It is with sincere gratitude that we thank all of you for your patronage and continued support. We especially want to thank all of our wonderful partners: our team of dedicated, reliable and trustworthy associates; our clients, who give of themselves everyday to improve patient care; and our vendor partners, who consistently deliver quality healthcare systems and support.

The past fifteen years have been marked by many accomplishments and demonstrate how excellence can be achieved when highly qualified, good people work together for a common cause. We eagerly look forward to the next years working with you to offer our molecular testing services and are committed to not only meet but also exceed your needs. We are particularly excited about the development of multiplex PCR testing, such as our test for Cystic Fibrosis Mutation Detection, HPV Genotyping and Respiratory Viral Panels, and are confident these tests will continue to support our mission of improving patient care.

Best regards,

Mike A. Mammarelli
